

NRCS Farm Conservation Plan
Standard Wire Fence for Sheep
Completed by Santiam Valley Ranch, LLC, 2022

September 8-9, 2022. Finding the property line which is located across the ditch. Sought help from surveyor, John Gorman.

August 11, 2022: 1129 foot woven fence project from post heading due East to the trees in the background.

September 9, 2022. Found survey marking line which is located 31.82' from the NRCS Easement Sign.

September 18-29. Mini excavator and crew arrive to lay out line, dig post holes and set posts in gravel, set wooden braces, lay out bottom barbed wire, place T-posts, and lay out woven wire.

September 29, 2022. East corner. We had to fill in a portion of the ditch.

September 26. Interior bracing. Barbed wire and T-posts in place.

September 26, 2022. Pulling woven wire with backhoe.

October 10, 2022. Clip-pies on woven wire.

November 21, 2022. Photos below.

Completed fence with bottom barbed wire, top barbed wire and sheep woven wire, T-posts at 7' spacing.
